Address

Hanumangarh, Rajasthan, India

Objective

Dedicated and detail-oriented Computer Science graduate with a strong foundation in cybersecurity and full-stack development. Proficient in ethical hacking, two-factor authentication systems, and secure web development using technologies like React, Node.js, and Python. Seeking an entry-level role in cybersecurity or software development to apply my technical expertise, enhance system security, and contribute to innovative projects in a dynamic and challenging environment.

Technical Skills

- HTML/CSS, JavaScript, Bootstrap
- React, Node.js, Flask, Python
- C++, Java, C, DSA
- MySQL, MongoDB
- Windows And Linux

Interpersonal Skills

- Leadership Skills
- Communication
- Problem-Solving
- Time Management

Certification

Udemy Full Stack Developer
Cisco Ethical Hacker
Google CyberSecurity
Oracle Generative AI
CyberSecurity Analyst

Projects

Car and Bike Rental Website

Developed a full-stack web application for renting cars and bikes, enabling users to browse available vehicles, make reservations, and manage bookings online. The platform includes user authentication, a search functionality, real-time availability updates, and a secure payment gateway.

Automated Vulnerability Scanner Tool

Developed a web-based vulnerability scanning tool that automates the process of identifying security risks in networks and web applications. Integrated Nmap for network scanning and OWASP ZAP for web application security assessment.

Two Factor Authentication

Built a secure web application with Two-Factor Authentication (2FA) to enhance login security using OTP-based verification via email or authenticator apps. Implemented encryption, session management, and protection against brute-force attacks, ensuring robust access control.

Education

Bachelor of Science in Computer Science

2022 - Present

Specialized in Information Security - CGPA (7.57)

Chandigarh University

Senior Secondary School - (80%)

2022
